

I am concerned about the possiblility of the low power FM taking priority over current Fm translator service. I listen to K-LOVE on 106.7. It has been a great encouragement to my family. It is much more than just a radio station. Our community would be worse off without this station. There are 1000's of people who receive support and encouragement from this station. The public deserves the opportunity to benifit from this station. Please do not allow low power fm to replace current fm translator service.
